CLIENT TESTIMONIALS from around the world.

Collaborating with LetPub for the design of my journal cover was a real pleasure. Service received was very fast and professional, and the image provided was of a very high quality and got immediately accepted as Front Cover in ChemElectroChem Journal. I strongly recommend this service.

- Dr. Alessandra Bonanni, Nanyang Technological University, Singapore

LetPub provides expeditious English language editing and formatting services. Their editors provide detailed feedback to improve manuscripts. I will use their services for future research articles, and I will highly recommend LetPub to my peer researchers and colleagues.

- Dr. Stefano Andrianello, University of Verona Hospital Trust: The Pancreas Institute, Italy

LetPub was great! I asked for complete scientific editing and, despite the issues of Covid-19 pandemic, the service was extremely efficient. During the whole process, the communications specialist’s attitude was excellent: immediate response to all requests, continuous support even after the end of the service and an incredible kindness.

- Dr. Stefano Andrianello, University of Verona Hospital Trust: The Pancreas Institute, Italy

I needed the manuscript to graduate, and the review letter I received was really hard for me. I had compared many companies, and finally chose LetPub to edit my manuscript. LetPub didn’t let me down. I am very satisfied with the results of the editing process.

- Mr. Wang, University College London, England

I was very happy with the prompt and clear communication with Kathryn and her team at LetPub. We needed to get a journal cover published on a quick turnaround and they offered the best price point and clearest communication of turnaround times I could find. The journal cover itself was FANTASTIC! I’m happy to recommend them (and use them!) for future journal covers.
